

RSIC PRODUCT GUIDE

THE RSIC SOUND ISOLATION CLIPS

RSIC-DC04

RSIC-DC04-HD

- LOWEST LABOR COST
- HIGH PERFORMANCE
- WALLS, CEILINGS
- WOOD, STEEL
- CONCRETE, CMU
- HEAD OF WALL
- WALL DECOUPLER
- CONDOS
- TIME SHARE / FRACTIONAL OWNERSHIP
- ASSISTED LIVING
- APARTMENTS
- HOTELS / MOTELS
- SINGLE FAMILY
- HOME THEATER
- COMMERCIAL THEATER

RSIC-DC04 & RSIC-DC04-HD

The **RSIC-DC04** series is a universal and versatile product line. The most common use is decoupling wall framing from existing structures. The design of the RSIC-DC04 can be used in new construction or retrofit. The RSIC-DC04 should be used when heavy items need to be acoustically decoupled for noise isolation.

A few examples of the possible uses for the RSIC-DC04 series of noise control clips:

Dropped ceiling, decoupled brace or resilient connector for isolating walls, speaker mount isolators, exhaust/vent fan isolators, recessed lighting cover box isolators, projector mount isolators, electrical box, ceiling fan isolators, garage door motor isolation, and garage door rail isolation just to name a few.

RSIC-DC04, the Low Cost, High Performance, Noise Control Solution
